MATARA

EDUCATION

Sri lanka Technological Campus (2024 - 2028)

- BSc (Hons) in Cyber Security

RELEVANT COURSEWORK :

- Network Security
- Ethical Hacking,
- Cryptography
- Cyber Forensics
- Security Policies and Risk Management.

TECHNICAL SKILLS

- Programming Languages: Python, C, C++
- Network Security: Firewall Configuration, VPN Setup, IDS/IPS
- Operating Systems: Windows, Linux (Ubuntu, Kali)
- Tools: Wireshark, Nmap, Metasploit, Burp Suite, Nessus, OWASP ZAP
- Web Security: SQL Injection, Cross-Site Scripting (XSS),

SKILLS

- Analytical Thinking
- Problem Solving
- Attention to Detail
- Team Collaboration
- Effective Communication

NISHEN MADAVA

CYBER SECURITY UNDERGRADUATE

PROFILE

Undergraduate cybersecurity student passionate about safeguarding digital assets. Building skills in vulnerability assessment, penetration testing, and ethical hacking, seeking an internship or entry-level role to gain practical experience and contribute to security solutions.

PROJECTS

Project 1:
Network Security Assessment

- Conducted a comprehensive security audit of a simulated corporate network.
- Used Nmap for network mapping and vulnerability scanning.
- Analyzed traffic with Wireshark to identify potential security threats.

Project 2:
Web Application Penetration Testing

- Performed penetration testing on a mock web application to identify vulnerabilities.
- Utilized tools such as Burp Suite and OWASP ZAP for testing.
- Successfully identified and mitigated multiple security flaws, including XSS and SQL injection vulnerabilities.

EXTRACURRICULAR ACTIVITIES

- **Board Member – University ISACA Club - organizing in CTF challenges and ethical hacking workshops.**
- **Member – SLTC LEO Club – contributed to community service projects and leadership activities.**
- **Online Learning & Certifications – Penetration testing, ethical hacking, and network security on TryHackMe & Hack The Box.**

CERTIFICATIONS

- **Certificate in Cyber Security & Ethical Hacking (C | C S E H)**
- **Foundation In Cyber Security (CICRA CAMPUS)**
- **E | Hacking Workshop V02**
